

Warm Candle Light Centerpiece

This will make a great centerpiece for your guest tables. This is affordable and will give a warm feeling in the atmosphere.

Supplies:

- Medium Height Glass Bowl.
- Small glass votive holder (preferably the same height than the glass bowl).
- Potpourri (a colour to match your theme)
- Votive Candle
- Candle ring or mirror base
- Glue gun
- Wire cutters

Directions:

1. Place potpourri into bowl, do not overfill.
2. Place votive into bowl in the center of the potpourri.
3. Place a votive candle into the votive holder.
4. Cut the candle ring to open it and place it around the base of the bowl. Then glue it into place.
5. It's that easy!!!

Notes: While shopping around I also found some other new items that can be used instead of potpourri. There is colored crushed glass and colored sand that looks great to, that has no scent. Some of your guest may be allergic to potpourri so try to keep that in mind. The bowl I used in the picture has a blue ting to the glass which gave it a nice soft touch.
